## Mining

*When it comes to systems automation and management, nobody gives you more control than GE. Our experience, flexibility and reliability mean simple, intelligent solutions for every aspect of your mining operation. With GE's technology, you've got the power of control. Power that impacts the quality of your product and your bottom line.*

### We Offer Processes, Not Just Products

With GE, our solutions go beyond products. We offer the capability to provide you with coverage over your entire process. From power to waste water, we provide a

total system solution. So think GE when you need total process coverage!

Call your GE sales representative today for more information.

# Earth-Shaking Solutions

In the mining business you've got to move mountains everyday. That takes power and control.

At GE, we're providing solutions for every aspect of your operation. From digging to hauling to crushing. GE process automation systems and application technology

give you control of your production process start to finish.

## Designed For The Long Haul

For decades, GE has been powering some of the largest static-powered shovels, drills and draglines in the world.

Our products and service solutions are designed to withstand the harshest conditions of your industry. We can put that experience to work for you.

## Intelligence That Goes Deep

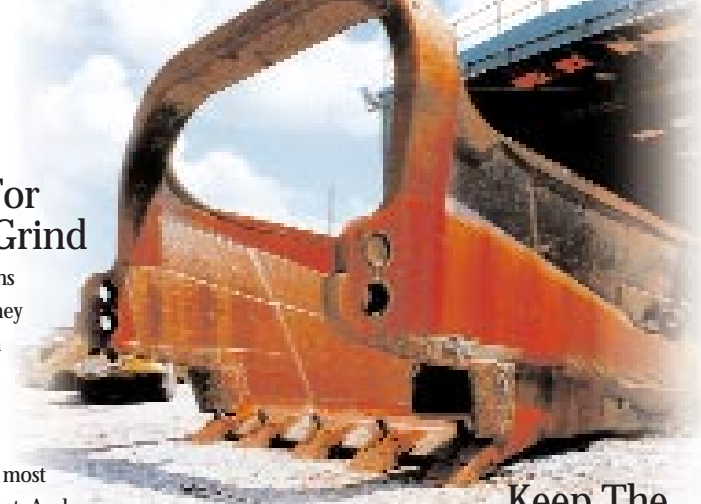

Providing intelligence with our Graphic User Interface, we deliver quick, precise, dependable interaction between your operation and the control system. Making your shovels and movers smarter, GE insures that your entire operation works more efficiently.

## Simple Solutions For The Daily Grind

GE system solutions don't just control, they communicate. From power supplies to motors, our systems connect your entire operation to get the most from each component. And we offer a full range of options for every application.

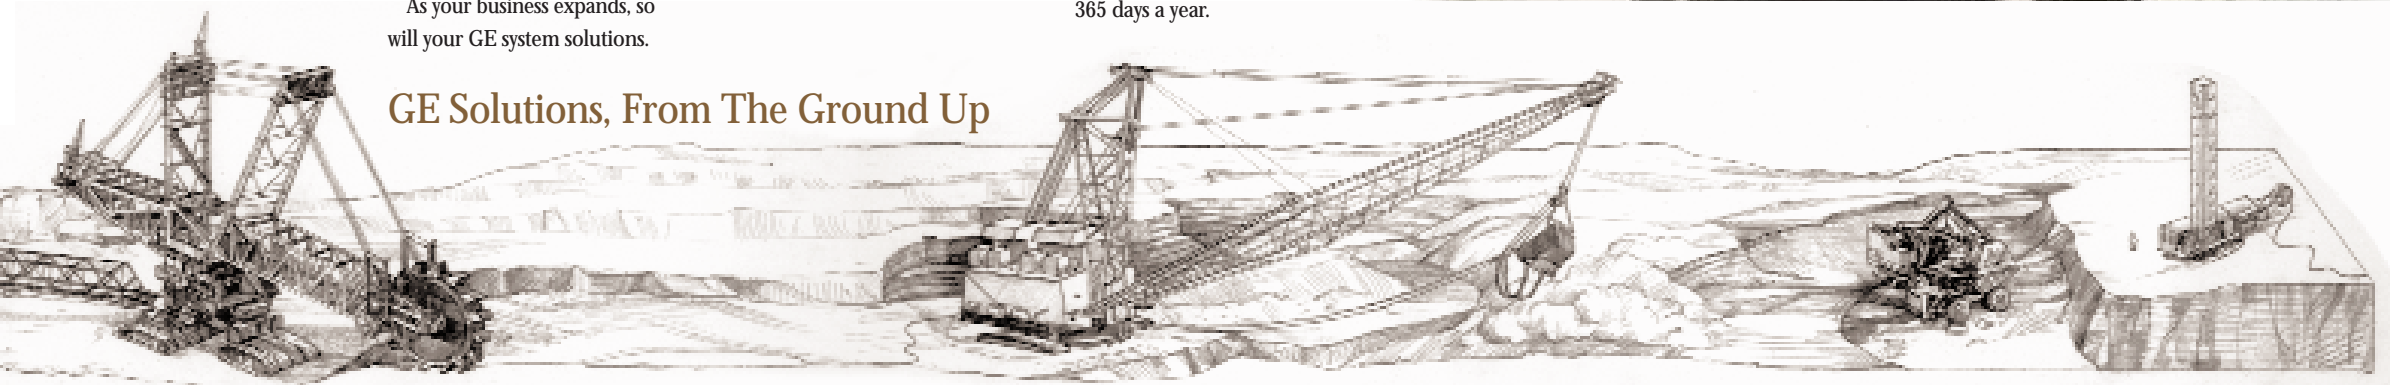

## Flexible Solutions That Grow With You

As your business expands, so will your GE system solutions.

## Keep The Earth Moving

GE engineers are dedicated to keep you up and running. From remote diagnostics to emergency and on-site repairs, we're there when you need us 24 hours a day, 365 days a year.

## GE Solutions, From The Ground Up

AC/DC Drives	Board Repair	Design, Furnish and Install Services	General Purpose Controls	I/O	Meters and Relays	Operator Stations	Power System Analysis	Process PID Controls	Resident Engineers	Servos	Test Equipment
AC/DC Motors	Circuit Breakers	24 hrs a day/365 days a yr., Dispatched Services	Generator Excitation	Installation	Motor Control Centers	PLCs	Predictive Services	Productivity Services	Resistors and Capacitors	Start Up Services	Calibration and Repair
Acceptance Testing	Contactors	Distributed Control Systems	Generators	Instrumentation	Multi-Variable Controls™	Panel Components	Proactive Services	Project / Outage Management	SCADA Systems	Starters	Training
Advanced Process Control	Control Modifications and Upgrades	Energy Services	Graphic User Interfaces	Inventory Management	24 hrs a day/365 days a yr., On-Site Support <sup>SM</sup>	Power Factor Correction	Process Automation Systems	Relays	Safety Systems	Substations	Transformers
Arrestors and Surge Protection	Coordinated Drive Systems	Financing	Hardware and Software Engineering	Lighting	Remote Diagnostics	Power Management Systems	Process Optimization	Renewal Parts	Sensors	Switchboards	Turbine Generator and Controls
